

Grower's Selection - Chill Out in 288's

Grower's Selection Chill Out is a new series of edible chilli that have been developed to meet the increasing interest in chilli. Important elements of the breeding have been both the compact growth as well as the spiciness of the chilli. Many new varieties will soon be introduced. Plants of the Grower's Selection series are easy to care for and will bring lots of joy to the consumer with a great number of edible fruits all summer long.

hot tomato
