

Strawberry

varieties 2010

Strawberry		<i>Fragaria spp.</i>	Seeds /Gram		Annual
Alpine Mignonette <i>Fragaria vesca</i> 	4931	An improved selection of a traditional French wood strawberry. Vigorous habit with no runners. Produces an abundance of miniature conical fruit. Very fragrant and well flavoured fruit. A superb variety for patio or garden planting. Flowering time mid spring - early autumn.	3600		
Bounty S1 <i>Fragaria x ananassa</i> 	5067	An early variety produces flavoursome fruit for a long period over winter and spring. 50% of the plants produce delicate light pink flowers. Great for Patio plantings.	2000		
Florian Pink <i>Fragaria x ananassa</i>  	5608	Beautiful pink flowers and full flavour strawberry. Florian is our variety for amateur growers who prefer to raise their own strawberry plants for their ornamental garden. Florian produces abundantly bright pink flowers throughout summer into autumn. Full flavour fruit of Florian has a typical aromatic flavour which makes it a real pleasure in your ornamental garden.	2000		
Fragoo Pink F1 <i>Fragaria x ananassa</i> 	3264	A unique item in pots, baskets or combos. Retailers and consumers will love Fragoos attractive foliage, flowers, and tasty fruit. During summer, Fragoo produces attractive runners that trail up to 91cm. Fragoo will overwinter to at least Zone 5. Uniform habit and earliness compared to other seed varieties, allowing for quicker turns. Day length neutral, Fragoo can be produced with regular bedding plants year-round. Fragoo is sweet in flavour and ornamental value! Garden height 10-125cm.	2000	Days to first fruit: 90-100	
Fragoo Rose F1 <i>Fragaria x ananassa</i>  	5583	This vigorous plant produces abundant large, deep rose flowers during summer. Medium vigorous plants with mid green leaves make many runners. A very early flowering variety, very large and semi-double sensational deep rose flower colour-during whole summer and autumn. Suitable for hanging baskets and tubs in ornamental gardens. Bright red fruit is medium sized, shape is elongated.	2000

Strawberry		<i>Fragaria</i> spp.	Seeds /Gram	Annual
Fragoo White F1 <i>Fragaria x ananassa</i> 	5582 	Early flowering and continuous production. This vigorous plant produces abundant aromatic fruit throughout whole summer. A nice addition to your hanging basket assortment. Plants are vigorous and somewhat compact with mid green leaves and few runners. Suitable for hanging basket culture. Big, semi-double white flowers on somewhat long flower trusses make this a real seller.	2000	
Loran White F1 <i>Fragaria x ananassa</i>  Early and compact.	5606 	Big fruit on compact plants and early flowering makes Loran an ideal variety for professional bedding plant growers. Compact plants with eye-catching deep green leaf colour. Few to no runners makes Loran well suitable for high density culture in 9-12cm pots. In gardens flowers come in waves. After first flower trusses some runners may appear. Conical, big fruits makes an attractive addition to your gardens. Bright, deep red coloured fruit comes with deep red fruit flesh.	2000	
Merlan Pink F1 <i>Fragaria x ananassa</i>  Early and compact.	5605 	Pink flowers, compactness and early flowering makes Merlan an ideal variety for professional bedding plant growers. Abundant flowers and fruit throughout whole summer. Few to no runners, well suited for high density culture in 9-12cm. Conical, mid size fruit makes Merlan an attractive addition to your hobby garden. Taste and aroma of Merlan are quite similar to strawberry Loran.	2000	
Sarian F1 <i>Fragaria x ananassa</i> 	3109	A new generation of quality Strawberries from seed. Heavy crops of fruit are produced on both plant and runners. Sweet, juicy fruits high in Vitamin C. Harvest throughout summer until the first frosts from an early spring sowing. Ideal for containers, window boxes, baskets and flower pouches.	2000	
Temptation F1 <i>Fragaria x ananassa</i> 	3058	Harvest fruits throughout the season. A major improvement over other seed raised strawberries. Large fruited and early. Produces an abundance of dark red fruit. The compact dark green plants produce few runners. An excellent variety for hanging baskets or containers.	2000	
Tristan F1 <i>Fragaria x ananassa</i>  Early and compact.	5607 	Compact and early flowering plants produce abundantly deep rose flowers and sweet tasting fruit during summer. Few to no runners makes Tristan well suitable for high density culture in 9-12cm pots Biconical, mid size fruit in combination with lovely deep rose flowers makes Tristan an attractive addition to hobby gardens. Abundant flowering and high yield of fruit will come during whole summer.	2000
