

Bellis perennis - English Daisy - Pot / Bedding

Speedstar®

New

replaces Galaxy Mix

Unlike traditional Bellis, the Speedstar series can be produced for both autumn and spring sales windows. This versatility, along with a compact habit and leaf size makes Speedstar a wonderful companion to pansies for autumn and spring production. For such a small beauty, the Speedstar series puts on a big show. Masses of semi-double flowers in carmine, rose, and white are set off by a golden yellow eye, creating a beautiful display in the pot or the landscape. Height 12-14 cm.

carmine

Tasso®

Tasso has double 4 cm blooms. Very attractive for pot and pack production, very uniform habit and flowering between colours. Garden height 12cm.

mix

Robella®

Unique salmon pink with medium 4cm flowers. An early flowering variety with spectacular displays of double flowers and a dwarf compact habit. Robella has an exceptionally long flowering period. Height 15cm.
