

Ageratum - *A.houstonianum* Floss Flower

Aloha Blue F1

Aloha Blue is as early flowering as Hawaii. Aloha works well in packs and 100mm pot production. An excellent mass market item, shows strong garden performance for the dwarf class of Ageratum. Days to first flower 70-75. Pack height 7-10cm, Garden height 12-15cm.

5100 blue - mid blue

Blue Danube F1

Exceptionally uniform. Each plant is compact and covered with mid-blue flowers. Blue Danube F1 is an excellent choice for top quality greenhouse plant production. Garden height is 15cm.

4932 blue - shades of lavender to blue

Hawaii F1

MIX - AVAILABLE IN PLUGS OR RAW SEED

An attractive, uniform series with early flowers on compact, tidy plants. Especially good in warm climates. All round good performance in packs, pots and outdoors. For professional plant growers, one or two applications of Alar at 2500ppm will promote deep green foliage and more uniform plants. Garden height is 15cm.

SINGLE COLOURS AVAIL FEB 2010,

Leilani

INDENT LINE

A full, bushy plant habit, very free flowering, literally covered with masses of fluffy, clear blue flowers all season long. The nice, dark green foliage adds contrast and depth. Crop time 12-14 weeks. Garden height 35-40cm.

1020 blue - clear blue

Blue Mink

NOT SUITABLE FOR POTTED COLOUR

An open pollinated tetraploid, large powder-blue flowers on dwarf, stocky plants. Tetraploids have larger leaves and flowers than most other varieties. Garden height 15-20cm.
