Highsun Express

*Calceolaria x hybrida - Slipper Flower*

## Dainty F1

A highly suitable series for 8-10cm pot culture. Firmer pouches are more Botrytis tolerant than other varieties. Small and compact plants save greenhouse space, are easier to handle and ship with minimum damage to plants and leaves. Flower pouches of 7-8cm across are borne profusely on dwarf, compact plants 12cm high with a 15cm spread.

1286 mix
