Pearl F1

Replaces Star Series

Pearls flower 2-3 weeks earlier than the Clips and are significantly earlier than competing varieties. The Pearl series can be used as both a mass produced pot plant and as a hardy outdoor perennial. More compact than the popular Clips and with a beautiful globe shaped habit, Pearls are covered by a dense crown of large upright flowers. Pearl Blue is the deepest blue on the market. Height 20cm.

Isabella™ F1

Isabella is a tender perennial and is totally unique to the pot and annual bedding plant market. Isabella has a nice compact habit and flowers profusely right from the start. What's more, Isabella is very versatile, grow it compact for a 10-14cm pot item or larger for use as an accent in garden beds and containers. Graceful, bell shaped flowers are an eye catching soft blue and a fresh colour addition to any garden. Garden height 20-25cm.
