

### Cheiranthus cheirii

### Charity

Charity is a very unique cheiranthus that blooms in both autumn and spring, and through the winter in mild climates. The plant is usable anytime in temperate areas as it doesn't require low temperatures for flower initiation and flowers quickly from seed the first year. Charity series has nice green foliage compared to other types. The compact plants are excellent for pots and garden use and its sweet fragrance greatly adds to consumer appeal. Height 25cm.

**mix** - cream yellow, rose red, scarlet and yellow

### Bedder

**Not Suitable for Potted Colour**

Dwarf variety with firm bushy habit in a range of bright attractive colours. Highly desirable for general bedding, as plants withstand windy, exposed positions. Height 30cm.
