Gerbera jamesonii - Maxi Types

Flori Line is a pot Gerbera F1 series. During several trials it has demonstrated all the attributes looked for in a pot gerbera:- uniformity in plant habit, early flowering, large blooms and high flower count.

This mix is selected for its colours
1695 growers sel mix

1722 speed racer mix

Speed Racer Mix is a specially formulated mix of 7 colours. Includes bicour and semi doubles to make a bright, eye catching blend. Flowers uniformly 1 week earlier than most in the series. Especially suited for growers who wish to bench run and program for target dates. *Not to be confused with the Grower Select Mix which is selected on colours and NOT uniformity of time of flowering.*

Gerbera jamesonii - Landscape Types

Lifestyle
GERBERA

A totally new concept - Pot Gerbera.

Compared to "standard" pot gerberas they are much larger, more impressive plants.

Compared to "cut flower" varieties the plant has a more compact and balanced plant frame.

Offers the added appeal of strong performance for large container use on balconies, patios and garden/landscape.

Large flowers, with strong, sturdy stems.

Flowers ideally suited for picking as fresh flowers, produce 3-5 flowers at one time making them an appealing display item.

Colours are strong and appealing including unusual bicolour not found in "standard" pot gerberas.
