

# Campanula

## Cut Flower Varieties

Highsun Express

www.highsun.com.au

Although Campanula medium is a beautiful cutflower, which should not be left out of any spring bouquet, it had one disadvantage in that it needed a two year cultivation period. It therefore hardly found its way to the consumer. This has changed with the all new Champion Series - Champion Blue & Champion Pink. The wonderful flowers, short cultivation period and high productivity mean first class cutflowers.

### Campanula medium x F1 hybrid

## Champion F1

**ANNUAL**

Champion is an attractive cutflower which is also suitable for production in big containers. Fast finishing, high yielding series has bell shaped, 4cm diameter blooms. Uniform, basal branching plants with 8-10 stems per plant. Height 65cm.

### Campanula rapunculus

## Heavenly

**PERENNIAL**

Heavenly Blue is a form of Campanula for cut flower production that does not require vernalisation to initiate flowering. Through daylength manipulation, using "mum lights", moderate temperatures of 13°C, scheduled flowering allows continuity of supply. Crop production and timing is similar to C.medium Champion series. Height 60-80cm.
