Celosia argentia cristata (Cockscomb)

Bombay

Bombay is a high quality greenhouse series with a 3-4 week shorter crop time than standard cutflower celosias. Bombay has round stems, flat triangular combs, truly uniform growth, 13-15wk culture, 64 plants m², stress resistant, excellent shipability, vase life of upto 3 weeks. Protected by

Plant Breeders Rights & Plant Variety Protection. A few colours have been awarded the Fleuroselect Gold Medal. Height 100-120cm. A number of growers have experienced difficulty producing this crop, it has been found that it is essential to grow the crop at the correct time of year which will vary with your location in Australia. This crop has been bred for European conditions for flowering into spring and summer therefore every attempt should be made to time this variety for conditions that most resemble that. Bombay Purple and Yellow Gold have proven to give the best results. Immediate planting after receipt is vital.
