Larkspur *D. consolida* (Delphinium)

Sublime

A very productive series due to its excellent branching habit. This reselected strain of the "imperial" type is the best for dried flowers. Solid stems, densely packed with fully double flowers. Harvest Time: dried flowers 90% in bloom and hang to dry in small bunches away from direct sun light. Fresh flowers 50% in bloom. Larkspurs are sensitive to mildew. Height 120cm. 450 Seeds/gram

Not Shown:

- 1924 bright carmine
- 1925 brilliant salmon
- 1928 lilac
- 1929 pale pink

1926 dark pink

1921 azure blue

1922 bicolour

1923 bright pink

1927 dark blue

1930 white

1932 rose

Sydney

Sydney is the first Larkspur that is truly suitable for professional, programmable greenhouse cultivation. Harvesting can be scheduled from spring until early autumn. Uniform flower spikes, fully double flowers along the length of the stem, upright plant habit with minimal side branching. Height 120cm. 450 Seeds/gram

3256 pink

1931 purple

1933 white

Disclaimer: "Significant variations in seed, variety and crop performance, in results and in crop outcomes may occur depending upon geographic location, climate, soil type, soil conditions, cultural and management practices and other growth and development factors. Any cultural and descriptive information or other advice, recommendation, information, assistance or service provided by Highsun Express is intended as a general guide only and should not be relied upon and is provided without liability or responsibility (including for negligence) on the part of Highsun Express. It is recommended that in all cases a small scale trial production is undertaken in order to test local conditions and circumstances that may affect the crop."
