Vinca *C.roseus* Catharanthus

Cora™ F1

Cora loves the heat! Patented resistance to aerial phytophthora! Large flowers and thick, glossy foliage. Consistently high seedling stands mean no double sowing. Uniform habit and flowering time. Same genetic background as Goldfish's vegetative Nirvana™. Garden height 30-45cm.

Patented Aerial Phytophthora resistant - Cora thrives where other vinca series die!

Cora™ Cascade F1

Cora Cascade™
TRAILING VINCA

Patented resistance to aerial Phytophthora, independent trials confirm that Cora Cascade is a survivor. Super large blooms cover the plant, no bald spots. Cora Cascade thrives in heat and humidity. Crop time is 12-16 weeks. Uniform habit and flowering time. Suitable for packs and larger, prefers full sun. Height 15-20cm, width 80-90cm. **Not Shown - 2369 mix**

Vigorous trailing plants fill large beds and landscapes. Perfect for baskets too.

Vinca C.roseus Catharanthus

First Kiss™

BEST FOR POTTED COLOUR

First Kiss flowers early and uniformly with large round blooms that have wide, overlapping petals. First Kiss has excellent basal branching, creating a nicely mounded plant habit. Excellent seed quality, rapid, uniform plant development and an excellent colour range make First Kiss a world class Vinca series.

3339 **burgundy** - very deep violet/burgundy

3131 **cherry** - (formerly coral) rosy red

First choice for pots.
Precise Japanese breeding.

Vinca C.roseus Catharanthus

SunStorm™

The perfect choice for lower price-point packs.

It's compact, super well-branched and extremely free flowering. That means fuller plants covered with colour, from top to bottom. SunStorm's deep green foliage exquisitely highlights the large, round, richly coloured blooms.
