NEW

Agapanthus
africanus

Enigma Bicolour
3981 **Landscape**

Evergreen, dark green strap like arching leaves. Bicolour flowers from blue in the throat to white on the petal's edge. Grows up to 50cm in height. Requires full sun and moist but well drained soil.

NEW

Agapanthus
africanus

Purple Cloud
7002 **Landscape**

Agapanthus "Purple Cloud" is widely acknowledged as one of the most attractive varieties. It grows to a height of approximately 130cm and produces large purple-blue flowers.

NEW

Aglaonema
commutatum

Siam Aurora
4165 **Foliage**

Siam Aurora is a lovely houseplant that has lance-shaped leaves edged and veined in rich red.

NEW

Aglaonema
commutatum

Super White
6389 **Foliage**

Aglaonema Super White is an amazing looking plant with leaves that are absolutely white with green veins that enhance its looks. It grows best in indirect/filtered sun and places that have bright natural light.

NEW

Aglaonema
commutatum

Wishes
6390 **Foliage**

Aglaonema 'Wishes' is a less common cultivar that features heavy pink splotching on its green outlined leaves.

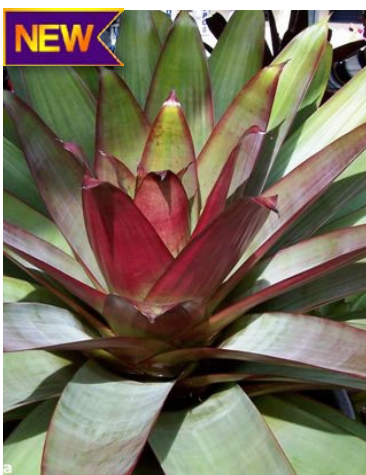

NEW

Begonia
rex

Escargot
6700 **Foliage**

The leaves have a very unique spiral and have a catching mix of silver and green. Grows very tight with leaves becoming very large at maturity. Flowers are white and are produced in early summer. Has a round, mounding habit. Grows to 12 inches tall.

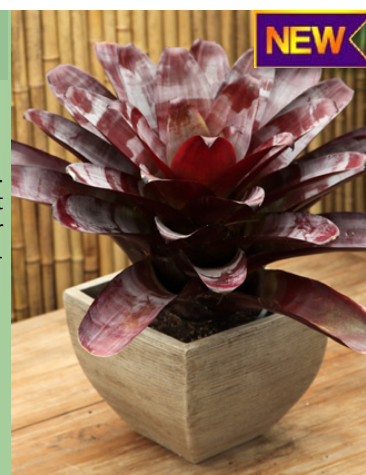

NEW

Bromeliad
alcantrea

Rubra
7003 **Foliage**

This dark-red giant can span over 1.5 meters in ten years. The tough, leathery leaves tinge a deep red in bright light. The thick, red flower spike can grow 2.5 meters high, producing hundreds of lightly fragrant, white flowers. Prefers bright light and can withstand relatively cool temperatures.

NEW

Bromeliad
alcantrea

Silver Plum
4095 **Foliage**

Alcantarea 'Silver Plum'. A giant bromeliad that doesn't mind sun or shade, with fantastic burgundy coloring.

Blushing Tiger
3010 **Follage**

Neoregalia 'Blushing tiger' is one of the best choices for landscaping. It gives a stunning display when planted in bunches. Its contrast and red stripes all over with dark red centre make it's a sought after neo in landscaping as well as just potted plant.

NEW

Bromeliad
neoregalia
Caroline
2254 **Follage**

Neoregalia Caroline has dark green leaves and red center (if kept under shade). This is a yet unnamed neo hybrid with glossy green leaves that turn crimson in partial sunlight.

NEW

Bromeliad
neoregalia
Gazpacho
3692 **Follage**

Neoregalia Gazpacho is a bright and beautiful medium sized neo grows about 40cm across at maturity. It has pretty red and green leaves, the depth of colour developing best in bright sunlight. Highly versatile, it can be grown in the soil, in pots and epiphytically to trees.

vriesea
Hieroglyphica
3011 **Follage**

Vriesea Hieroglyphica is an unusually beautiful plant whose shiny green leaves with dark, hieroglyphic cross bands totally outshine its tall green flower spike bearing pale cream flowers. Given some 10 years, the rosette can spread to about 1.5 metres, earning it the common name of King of Bromeliads.

NEW

Bromeliad
vriesea

Miranda
3004 **Foliage**

Bromeliad
vriesea

Rubra
5924 **Foliage**

A stunning large leaf plant with exotic markings in burgundy and cream. Leaf colouring is more pronounced in full sun and with age. Grows to 90cm in free draining, full sun or light shade in a sheltered position. Tolerates dry periods

NEW

NEW

Bromeliad
vriesea

Tiger Tim
3009 **Foliage**

Vriesea Tiger Tim is a striking and unusual medium sized brom with numerous whitish, light and dark green patterned leaves and vivid yellow inflorescence. The dense rosette can grow 40 cm in diameter and 80 cm high. Prefers indirect light.

Calathea
calathea sp.

Bicajoux Pink
7015 **Foliage**

Delightful pink flowers as well as leaves that are deeply margined in colours of dark and light green. The foliage tends to move during the day, following the light and responding to the temperature. Easy to care for, these like a certain amount of humidity and will respond well to gentle misting of the foliage.

NEW

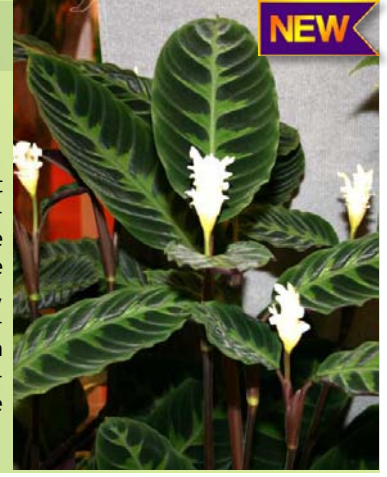

NEW

Calathea
pilosa

Pilosa
4183 **Foliage**

Pilosa has green and yellow patterned elliptical leaves with pale green undersides.

NEW

Calathea
warscewiczii

Warscewiczii
4185 **Foliage**

Lanceolate leaves that have a dark green background and an attractive fishtail pattern on the upperside of the leaves, completed by a velvet-fuzzy texture. Calathea warscewiczii also produces showy cone-like inflorescences.

NEW

Carnivorous Plants
sarracenia

Scarlet Belle
3616 **Foliage**

A low-lying Sarracenia hybrid that has angled leaves. The ends of the pitchers color with prominent red veins enclosing white markings.

NEW

Cordyline
australis

Pink Champagne
3008 **Landscape**

This cultivar of Cordyline australis has narrow upright pale green leaves that are variegated along their margins with cream white, and blushed with pink near the base. Replaces Torbay Dazzler.

NEW

Cordyline
terminalis

Caruba Black
3923 **Landscape**

Cordyline Caruba Black. A stunning indoor, patio or tropical garden specimen with shiny rich purple-black leaves on a compact, multi-stemmed plant. Provides superb contrast with light colored walls and bright-colored foliage plants.

NEW

Cordyline
terminalis ☾ ☽

Firebrand
4055 **Landscape**

Cordyline Firebrand features vibrant dark reddish-purple leaves with green highlights. Grows approx 3m tall and prefers dappled shade.

NEW

Cordyline
terminalis ☾ ☽

Mini STC Purple
2997 **Landscape**

NEW

Cordyline
terminalis ☾ ☽

Tience
4069 **Landscape**

A bright pure white leaf with red candy cane stripes.

NEW

Cordyline
terminalis ☾ ☽

Willys Gold
4048 **Landscape**

Willys Gold. Wide leaves with shades of green, red, orange, and yellow reminiscent of autumn.

NEW

Ctenanthe
amagris ☐ ☾

Amagris
4175 **Foliage**

An all-silver form, great low growing ground cover. The grey leaves have very narrow light green veining resulting in the silver grey colour dominating.

NEW

Dieffenbachia
corsii ☐ ☾

Memoria Corsii
6854 **Foliage**

This dieffenbachia has mottled leaves in shades of green and white.

NEW

Dieffenbachia
maculata ☐ ☾

Tropical Tiki
6456 **Foliage**

This beauty has deep green margins along the leaf edge and hosts light green venation that fades to a dark with and has bright white spots.

NEW

Fatsia
fatsia ☐ ☾

Spiders Web
6928 **Foliage**

Large, tropical looking leaves emerge frosted in white patterns like silver webbing that fades to a more subdued green as they age. This unusual type of variegation changes from leaf to leaf and with the seasons giving each leaf a unique appearance.

NEW

Fern
nephrolepis

Duffii
7017 Foliage

'Duffii' is a densely covered, compact fern with unique looks. It takes its ornamental value from the straight, sometimes forked, erect leaf stalks, which are covered with tiny, knot-like leaflets 1 to 2 cm in length. One of the great advantages of 'Duffii' is its tolerance of warm, dry environments.

NEW

Fern
nephrolepis

Murano
7018 Foliage

Murano has sturdy upright fronds with a typical wavy frond. It has a more open growing habit. When the fronds reach a length of 3 feet (1 m) or more, they start to hang down, making this fern suitable for use in hanging baskets.

NEW

Ficus
elastica

Marble
3615 Foliage

An attractive slower growing Ficus that should find a place amongst any Ficus growers' assortment.

NEW

Ginger
Zingiber officinale

Ginger Edible
2186 Foliage

Edible Ginger is a perennial plant in the family Zingiberaceae grown for its edible rhizome (underground stem) which is widely used as a spice. The above ground shoot is erect and reed-like with linear leaves that are arranged alternately on the stem.

NEW

Hoya
carnosa

Pink
5813 Foliage

Hoya carnosa, commonly called wax plant or honey plant, is a climbing or trailing perennial. It is typically grown as a houseplant. Plants feature glossy, elliptic, fleshy, dark green leaves and tight rounded clusters (umbels) of fragrant flowers.

NEW

Liriope
muscar

Variegata
7016 Landscape

'Variegata' features medium green leaves which are variegated with creamy yellow margins.

NEW

Peperomia
graveolens

Graveolens
4151 Foliage

Peperomia graveolens is a mini shrub, up to 25 cm tall, with glowing wine red stems with extremely succulent leaves that are wine red except on the upper side where there is a v-shaped transparent "window" to enable photosynthesis.

NEW

Peperomia
ferreyrae

Happy Bean
4157 Foliage

As a forest-floor dweller this very succulent Peperomia grows best in bright diffuse light but not full sun. The green stems bear very slender, narrow green leaves, up to 7.5 cm long.

NEW

Peperomia
scandens

Scandens
4156 Foliage

A trailing evergreen perennial to 20cm tall, with heart-shaped light green leaves to 6cm long, broadly margined with yellow; often produces all-green leaves.

NEW

Philodendron
goeldii

Goeldii
4158 Foliage

A Philodendron with compound, green leaves arranged in an open, circular form.

NEW

Phormium
cookianum

Black Beauty
7008 Landscape

NEW

Phormium
cookianum

Bronze Baby
3984 Landscape

NEW

Pothos
scindapsus pictus

Satin
6981 Foliage

A slow-growing evergreen twiner to 1m or more, with dark green ovate leaves to 10cm in length, spotted with silver on upper surface.

NEW

Spathiphyllum
commutatum

Sensation Little
2190 Foliage

NEW

Spathoglottis
spathoglottis

Mellow Yellow
6856 Foliage

Talk about "Wow" power, 'Mello Yellow' is in a league of it's own with broad yellow flower petals outlined in shades of purple. A fast growing well branched garden orchid commonly producing multiple flower spikes each producing numerous large showy flowers.

NEW

Spathoglottis
spathoglottis

Lemon Kiss
6855 Foliage

An early flowering garden orchid. The flower petals are bright yellow color with a contrasting lip with a splash of purple. 'Lemon Kiss' produces multiple flower spikes with clusters of flowers. Each flower spike will continuously produce flowers for months.

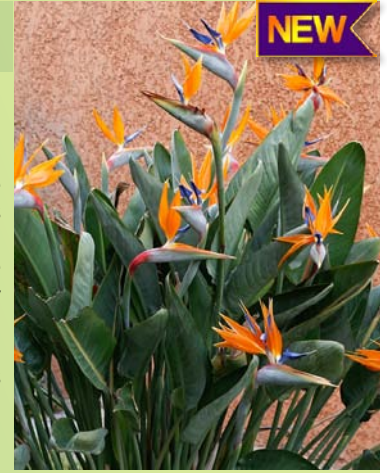

NEW

Strelitzia
nicotia

Nicotia
7010 Landscape

Picture a crown of banana-like leaves atop a palm tree trunk, combine with huge, uniquely beautiful flowers, and then what you have is the exotically named bird of paradise tree. The leaves are gray-green and arranged in fans atop the trunks.

NEW

Strelitzia
reginae

Reginae
7011 Landscape

Strelitzia reginae, known as the bird-of-paradise flower. Fantastical flowers aside, this is also a very attractive foliage plant. The paddle-shaped leathery leaves are about 20cm long and 15cm wide. Forming massive clumps 1m high. It truly lends a romantic tropical ambience to the landscape.

NEW

Stromanthe
sanguinea

Sanguinea
6538 Foliage

Waxy deep green leaves in "Prayer Plant" fans with rich blood-red underleaf; tiny white flowers in red bracts. Low light survivor--a basic in any assemblage of reliable house plants; now much used in shady patio positions as well.

NEW

Syngonium
podophyllum

Mango Allusion
4162 Foliage

NEW

Taro
colocasia esculenta

Taro Japanese
4178 Foliage

A leafy vegetable tuber also known as dasheen. A perennial featuring thick shoots and large, elephant ear-like leaves. reaching heights of about 1m. The showy leaves add a bold touch to ornamental gardens and water gardens while the starchy, edible vegetation lends itself to frying, roasting and boiling.

NEW

Zamoculcus
zamiifolia

Zanzibar Gem
7013 Foliage

The Zanzibar Gem plant is an easy to grow and care for indoor plant. Growing from rhizomes, it has thick, upright stems bearing narrow, dark-green glossy leaves.
