Excess – stock that is available

The following list is of stock anticipated to be available in the coming weeks denoted by the ship week. This stock sheet is compiled weekly and shows stock surplus to our contract orders. In the event of our contract orders being short supplied, we reserve the right to utilise the excess to fulfil our contractual obligations and to advise you accordingly.

To order from this list, please return by fax or email indicating the item and quantity required. Preference will be given to fax/email orders over telephone orders so they can be processed in sequence received time and date. An Order confirmation will be remitted to you.

Due to new requirements for the importation of plants into Tasmania, stock orders will need to be received by midday Friday in order for them to be shipped early the following week.

If you require a specific variety or colour, we recommend that you place a contract order to avoid disappointment.
